PRIVATE SPA

VANITAS

An "Ad hoc" facial treatment. Sensitive skin is relaxed and soothed, drier skin is hydrated and nourished, impure skin purified and rebalanced. The aim is to enhance the skin's natural ability to rebalance itself, carefully evaluating and selecting the correct type of product to use. What makes this facial treatment particularly effective is the high concentration of active ingredients used in the various stages. Firstly, three types of cleansing with antioxidant properties that help the skin receive a peeling and scrub to eliminate toxins. The treatment continues through the application of a fruit-based mask: moisturizing prickly pear; lightening Malvasia; elasticizing and nourishing cannabis sativa; regenerating and firming carob. To finish, a face, neck, and upper chest massage with cannabis and prickly pear seed oils, a serum and cream chosen according to the needs of the skin. A truly precious and unique ritual.
